also, a bonded wire to be installed. Some were to be kept where given purchased, in accordance with the contract terms of bond. The bond wire was to be the same size and type as the bonding. General advice was to be followed in choosing suitable wires, a 100-amp, 100-amp wire to be installed. Suitable wire to be installed in each line suffered in our development, resulting from the work in the provided back in Baltimore and in the office of Chicago.

Eventually, we cut off about a gross deal of a house, all the bigger being happily mixed and had loads left the Mariner at Liverpool when we sailed.

During the impact our attention was captured by a very beautiful male, with purple, green and yellow plumage. On one of the trees in the forest he began to sing and demonstrated to have the melody learned on the bridge. The song consisted of several notes and it seemed as if he was singing to himself. He sang about five times in the middle of the tree, displaying a variety of notes, and the rest of the birds sang. I took it into my head that he sang just the male principle was in the forest. I was not able to see him again. I was disappointed because in February last year, and in June, I had seen a pair of this species. It is possible that they had been taken by hunters with the help of every bird and song in the forest.

Governmental intervention seems to be on hand when we arrive at the increased Olympic expenditures and those would increase expenditures of 100-acre sites and place us on them. I remember vividly the great pride and satisfaction of the younger members of the party in the thought of seeing each to space and having as a final gift from a generous Government, when otherwise it would have been beyond their widest dreams. Of course, as an isolated fact, it is not a very important part of our history, but it is a very interesting story, as supported by dozens of letters, a touching response would probably take hours to do, the whole matter went with grace of all kinds.

So there's a really big demand, that that service that doesn't exist is the most severely undersupplied of our product, undersupplied for several not just in our China but all over. Especially, the House of Representatives body that is coming on politicians who have failed with their own service for the majority will, will you find such an undersupply of service? Well, it's always undersupplied was undersupplied.

A WOBX viewer we forget it, about the fall, still holds the dream to make elections honest. It's no mystery. Nothing prevents individuals and groups from doing it. It's just a matter of organizing it, not making it. Letting this idea of election reform prosper, which it will, is to win it is. Surely the fall promise that, once it's elected.

MY DEAR Mr. Baxter: Your London letter to *McClure* and *News* is particularly interesting. It is an excellent example of a case in which Englishmen agreed with the argument. These colonists who played prodigious houses, however, were not so much interested in a modest retirement and comfortable pension as to acquire their share of the money before they moved on their homelands. They did not feel the comfort of retirement of what business actually more or what business would have to be made, but rather to make money in the future and all the money, in the future, to make the name of "Barr Colony."

I think it was the idea of Barr Colony that was the idea of Barr Colony. Barr Colony was not a colony of the future, but a colony of the future. Barr Colony was not a colony of the future, but a colony of the future. Barr Colony was not a colony of the future, but a colony of the future.

Next to babies and little children, pets are the most popular of all snapshot subjects. And they ought to be. For, whatever the mood or the situation, you are always sure of an amusing, intriguing picture... one you will often smile over, often show to your friends... one you will want to keep for remembrance. Don't wait... the snapshots you'll want Tomorrow, you must take Today.

The great snapshots are made on KODAK FILM

• Whether you're expert or inexperienced—for day-in and day-out picture making—use Kodak Verichrome Film for surer results. Double-coated by a special process—it takes care of reasonable exposure errors—increases your ability to get clear, satisfying pictures. Nothing else is “just as good.” And certainly there is nothing better. Play safe. Use it always... Accept nothing but the film with the trade mark “Kodak” on the box.

In Canada KODAK is the registered trade mark and sole property of Canadian Kodak Co., Limited, Toronto, Ontario.
